

ADVANCED CLINICAL PRACTICE FOR CANCER PHARMACISTS

CANCER PHARMACY EDUCATION AND PROFESSIONAL DEVELOPMENT

The CPG recognises there are limited continuing development and education opportunities for pharmacists who have a good foundation experience in cancer.

To help these pharmacists further develop their knowledge and skills the CPG are pleased to offer an Advanced Practice weekend seminar.

This seminar is designed for pharmacists who have a broad experience of working in cancer services with a good base knowledge of cancer therapeutics.

The course content changes each year to focus on new areas of practice and cover different areas of cancer practice and professional development topics.

In 2017 we are pleased to announce our seventh Advanced Practice Seminar will be held in Melbourne on the weekend of the 21st and 22nd of October. We are proud of compiling an exciting program covering a range of treatment areas and advanced topics.
